SACYR AWARDED RAIL MAINTENANCE CONTRACTS IN SPAIN AND PORTUGAL WORTH €158 MILLION

- The company will undertake maintenance tasks on 932 km of rail and overhead lines for Infraestruturas de Portugal.
- Sacyr will oversee the upkeep of 470 km of high-speed rail.

Madrid, December 12, 2023.- Sacyr Engineering and Infrastructure has been awarded several rail maintenance contracts in the Iberian peninsula worth a total €158.5 million.

Infraestruturas de Portugal (IP), the state-owned company in charge of the national rail network in Portugal, awarded Sacyr Neopul, a Sacyr Engineering and Infrastructure company, and EIP the maintenance contract for Bundle 3 – South, comprising 932 km in total, in the rail and overhead line specializations.

Contract value for this project, located in the center and south of the country, amounts to €46 million across a three-year period -extensible to an additional two-, and includes predictive, preventive, and corrective maintenance tasks.

ADIF contracts

Over the past few months, ADIF awarded Sacyr Engineering and Infrastructure several rail maintenance contracts amounting to **€112.5 million in total**:

- **Maintenance on the Northern Madrid area high-speed rail track** for €56.2 million. This contract comprises the predictive, preventive and corrective maintenance works over a 470 km stretch in four years. The contract is in a JV comprising Sacyr Engineering and Infrastructure, Copasa and Cosfesa.
