

## MEDIA RELEASE

# CDP INCLUDES SACYR AMONG THE HIGHEST-RATED COMPANIES ON SUPPLY CHAIN ENGAGEMENT

- For the third year in a row, Sacyr receives an “A” score by CDP thanks to its performance in managing its supply chain.
- Sacyr has many tools to assess climate change leadership performance and analyze risks and opportunities across the entire supply chain.

**Madrid, March 6, 2024.-** CDP, one of the most important climate disclosure organizations worldwide, has situated **Sacyr among the highest-rated international companies for its responsible management of the value chain in terms of climate change fighting practices**. Its climate change leadership performance has earned the company a place in the **Supplier Engagement Leaderboard 2023**.

This ranking highlights the performance of **companies with the most proactive approach at involving their suppliers to ensure that climate change** fighting measures are in place across the entire supply chain. CDP considers how **committed companies are to engaging their suppliers, best governance practices and strategies to measure Scope 3 emissions and goal-setting mechanisms**.

Sacyr **works transversally throughout the entire lifecycle of its activity range** aiming to reduce greenhouse gas emissions across the supply chain.

With this acknowledgement, CPD **highlights how efficient companies are at involving their suppliers** in the fight against climate change and the loss of natural resources.

## MEDIA RELEASE

### **Responsible management**

Sacyr makes a **responsible management of the environmental aftermath** of its activities from a preventive approach.

Sacyr develops **solutions that address this challenge**, using decarbonization and adaptation as core foundations in its Climate Change strategy. The company's goal is to be **carbon neutral before 2050**.

To achieve the necessary pace to limit the increase in global temperature, **Sacyr engages its main suppliers** to work on their impact on **climate change and nature**.

### **About CDP**

**CDP is a non-profit organization** assessing the **comprehensiveness of disclosure, awareness and management of environmental risks** and demonstration of best practices associated with environmental leadership, such as setting ambitious and meaningful targets.
