

PRESS RELEASE

MOOEVO GREEN ADHERES TO THE 'EMPRESAS POR LA MOVILIDAD SOSTENIBLE' PLATFORM

- **The company by Sacyr Green and MOOEVO offers micromobility solutions in cities.**

Madrid, March 7, 2023.- MOOEVO Green (Sacyr Green and MOOEVO) adheres to the 'Empresas por la Movilidad Sostenible' and the Sustainable Mobility Compact.

Marco Sosa, Director of Sacyr Green, **Ignacio Estelles**, CEO of MOOEVO Green, and **May López**, Director of Development for Empresas por la Movilidad Sostenible, subscribed to the adhesion to the platform.

By adhering to Empresas por la Movilidad Sostenible, MOOEVO Green also becomes a signatory of the **Sustainable mobility compact**, driven by the platform. This document includes ten guiding principles that any organization must follow in its commitment to sustainable mobility to facilitate decision-making and establish joint actions to achieve the goals set by the European Union, which Spain has subscribed to at a state level.

[Empresas por la Movilidad Sostenible](#) is a meeting point for companies and public institutions that pursue sustainable growth from the financial, social, and environmental standpoint.

Mobility of the future

This platform works as an accelerator, facilitator, and generator of impacts to guide all involved agents in the industry regarding the present and future of respectful mobility with the environment, safe, inclusive, and sustainable.

PRESS RELEASE

By adhering to ‘Empresas por la Movilidad Sostenible,’ MOOEVO Green joins the 50+ organizations that are platform members and are committed to sustainable growth from an economic, social, and environmental standpoint.

In the opinion of **Ignacio Estellés**, CEO of MOOEVO Green, “At MOOEVO Green, we create new vehicles and electric solutions for mobility, offering new alternatives to cleaner transport, to contribute to a more sustainable and fairer world. We tackle the challenge of climate change from an innovative approach by developing new tech concepts that are useful to create friendlier cities and improve services to make people’s lives better.

On her end, **May López**, Director of development at Empresas por la Movilidad Sostenible, said, “Guaranteeing low-emission mobility is a challenge, but also an opportunity. Companies like MOOEVO Green, which market electric carts developed and made in Spain and cover last-mile transport needs with cargo bikes that are becoming more and more present in low-emission zones or maintenance and cleaning services, including reduced mobility transport, are a clear example of this”.

MOOEVO Green

MOOEVO Green is a joint venture created recently with the aim of developing and marketing electric carts that help in last-mile delivery and make urban services more sustainable and cleaner.
