

PRESS RELEASE**SACYR WILL CARRY OUT THE MAINTENANCE OF A
ROAD CORRIDOR OF 324 KM**

- **The maintenance of the 324 km-stretch between the city of Cusco and Echarate will make traffic more efficient and safer in the area.**
- **Sacyr performs the maintenance of 1,000 km of roads in Peru.**

Lima, January 17, 2019.- Provías has awarded the Vial Rutas del Cusco 2 Consortium, made up of the Sacyr's subsidiaries, Saopse and Sacyr Maintenance Services, the management and maintenance of the 324 km road corridor linking the city of Cusco and the town of Echarate (Peru), for approximately 9 million euros (33 million Soles) and a period of 3 years. The routine maintenance works will enable a more efficient and safer transit in the area.

The works and maintenance activities that will be carried will mostly consist, among others, of: the cleaning of roads, bridges, ditches and sewers, patching of the pavement, repair and replacement of road signs, guardrails and maintenance of pavement markings.

Thanks to this new contract, Sacyr achieves an important participation in the Peruvian road maintenance market, maintaining close to 1,000 km of roads for around 26.3 million euros (100 million Soles) over the next three years.

These projects reinforce the group's commitment to the development and maintenance of the country's road infrastructures, contributing their experience accompanied by the implementation of new techniques and processes for better and efficient maintenance of the infrastructure resulting in care for the environment.
