

**PRESS RELEASE**

**SACYR WINS ROAD MAINTENANCE CONTRACTS IN SPAIN  
FOR 40.7 MILLION EUROS**

- **Sacyr Maintenance increases its road maintenance portfolio in Spain to over 3,000 miles**

**Madrid, September 23th, 2019.** Sacyr Maintenance has been awarded two road maintenance contracts in Navarre (Government of Navarre) and another in Castile and León (Ministry of Public Works and Transport) totaling €40.7 million. With these new contracts, Sacyr now maintains over 3,000 miles of roads and highways in Spain.

In Castile and León, Sacyr carries out maintenance work on the A-6 highway on the Adanero-Benavente section, which stretches a total length of 210.3 miles. This contract is worth €8 million over a two-year period, renewable for three more years.

In the Autonomous Community of Navarre, Sacyr Maintenance, alongside Construcciones y Excavaciones Erri-Berri, will maintain the roads in the Districts of Tafalla and Tudela, which cover approximately 676 miles. These contracts amount to €15.5 and €17 million, respectively, and end in 2023.

Sacyr Maintenance is the subsidiary of Sacyr Services devoted to maintenance work on all kinds of road infrastructures (over 7,450 miles of roads in Spain, Peru, Chile, Uruguay, Mexico and Italy), dams, airports, ports, irrigation canals and hydroelectric power plants. It is at the forefront of its sector in terms of innovation and is one of the companies with the highest number of R&D&i contracts in Spain.
