**SACYR, LEADER IN SUSTAINABILITY IN SPAIN'S
INFRASTRUCTURE SECTOR, ACCORDING TO
SUSTAINALYTICS ESG RISK RATING**

- **This prestigious rating, developed by Morningstar's subsidiary, Sustainalytics, assesses the performance of companies based on ESG criteria: environmental, social, and corporate governance.**
- **Sacyr places fifth among construction and infrastructure companies internationally, and first if companies within the 1,700 million dollars market capitalization range are considered.**

Madrid, June 14, 2021.- Sacyr is the most sustainable company in the infrastructure and construction sector in Spain, according to the assessment by [Sustainalytics' ESG Risk Rating](#).

This rating, elaborated by Morningstar subsidiary Sustainalytics, assesses the sustainability performance of more than 20,000 companies in the world. ESG criteria analyzed **consider environmental, social, and corporate governance aspects of companies.**

Sacyr places **fifth out of the 282 infrastructure companies analyzed worldwide** by this agency and **first among international companies with a market capitalization within the 1,700 million dollars range.**

Strategic focus

This evaluation by Sustainalytics, an example in sustainability, backs the roadmap set by the **2021-2025 Strategic Plan**. This plan positions Sacyr as a sector leader with a

PRESS RELEASE

sustainable and innovative value proposition that supports the development of the societies where we operate and contributes to the United Nations' 2030 Agenda.

More than 450 aspects and 70 variables

Sustainalytics' report considers more than 450 aspects that help assess 70 variables. Its qualifications measure the company's exposition to industry-specific ESG risks and evaluate the company's management.

Sustainalytics is an independent firm, a leader in research, qualification, and analysis of corporate governance and ESG that supports investors in the development and implementation of responsible investment strategies internationally.

The firm, an international reference for international investors for more than 25 years, provides information about a total of companies that represent more than 80% of total market capitalization.

We also rank in FTSE4GOOD

Sacyr is also part of the FTSE3GOOD sustainability index since 2015, which recognizes company efforts regarding environmental, social, and corporate governance matters.

FTSE4GOOD is a stock market index created by the London Stock Exchange that measures several environment, human rights, community impact, market behavior, human resources, and corporate governance-related criteria.
